PREFACE.

THE present volume is intended as a contribution to what may be justly considered a not unimportant department of our National Song literature—the Nursery Rhymes, namely, which seem appointed, by tacit and universal consent, to be "said or sung," and to be listened to, with unwearied interest and appreciation, in those great National Institutions, the Nursery and Home School-Rooms. To all who are interested in the selection of books for children, the book is now offered by the Publishers, with the hope that it may gain general and extended approbation. Especial pains have been taken to secure the suffrage of that still larger public, in petticoats and knickerbockers, whom a genial writer of the last century, who loved children, and spoke and wrote of them with infinite tenderness and affection, describes as "masters in all the learning on the other side of eight years old."

If it be true—as asserted by one of the greatest of critics and authors—that Sir Roger de Coverley and Mr. Spectator are more real than nine-tenths of the heroes of the last century, and that almost the only autobiography to be received entirely without distrust and disbelief is that of one ROBINSON CRUSOE, Mariner, of York—then, surely, those important personages, JACK and JILL, HUMPTY DUMPTY, and my LADY WIND, are real and distinct entities in the mind of every little child whose nursery education has not been entirely and unwarrantably neglected; and therefore it has seemed good to the Publishers to present to the children of the present day the adventures of those heroes, with musical accompaniments. In the arrangement of this portion of the volume, especial care has been taken by MR. ELLIOTT to keep the songs strictly within the capacity of children's execution, and the compass of children's voices. In his own family he has found a young jury ready to test the various tunes, and has chosen only those melodies which found prompt acceptance were easily remembered, and came trippingly off the tongue.

Among the old favorites a few new aspirants to popularity will be found; but it is hoped that their presence will be considered an additional attraction, and in no way lessen the pretentions of the present volume to be considered a compendium of National Nursery Rhymes.
